10 ⁰/₁₀ Discount on all orders received before July 1st.

Order your bulbs in May and June. Select varieties when they are in bloom and send off the order at once.

Early orders enable us to secure from our nurseries the best grade of bulbs in the varieties wanted. Early orders enable us to make better prices, because the risk in estimating our requirements is removed, so we can figure closely and avoid loss.

The report of scarcity this season makes it particularly important to order bulbs early.

THEREFORE, AS AN INDUCEMENT, we will allow 10 % discount on all orders received before July 1, which are accompanied by full cash.

THE UNIVERSITY OF CHICAGO

[illegible][illegible]

Among numerous perennials hundreds of Tulips made this small suburban plot a prize garden in May.

All Tulips, Hyacinths, and Crocuses that we offer are the products of our nurseries located in Hillegom, Holland.

Daffodils, Irises, etc., are grown at our Long Island nurseries, located on Arnold Avenue, West Babylon, a mile and a half from Babylon village, on concrete road between Babylon and Amityville.

Our Daffodil fields are very attractive during spring, and our nurseries are always open for inspection.

Cordially yours,
VAN BOURGONDIEBROS.

GENERAL DIRECTIONS

Method of Shipping. We request that you let us decide as to the best method of shipping, either by Parcel Post, Express or Freight, Collect, but be sure to furnish us with your Express address and Parcel Post address.

Open Accounts. Bank references must be given in order to open an account, but no account will be opened for less than \$ 10.

Orders Below One Dollar. Owing to the high cost of packing, please do not ask us to fill orders below \$ 1.

Early Ordering is of great advantage, as orders are filled in rotation, and we wish to be fair to all. **Packing.** All plants and bulbs will be packed with greatest care and by experienced packers.

Growing of Bulbs and Plants. All bulbs and plants which we ship should grow, but disregard of planting instructions or delay in planting, after arrival of the bulbs and plants, are sometimes the cause for dissatisfaction.

Correspondence. We will be pleased to answer all correspondence promptly, but if you make your inquiries as brief as possible it will greatly assist us.

True to Name. Accidentally, through an unforeseen rush, we may be sold out of a certain variety, in which case we will send you a substitute of similar color and quality, with the correct name. If this is not desired, money will be refunded.

DOZEN, 100, or 1,000 RATE. We supply 6 of one variety at the rate of one dozen, 25 of one variety at the rate of 100, and 250 of one variety at the rate of 1,000.

Our Guarantee. We guarantee all our Bulbs, Roots, and Plants to grow and to be true to name, and we will replace any Bulb, Root, or Plant, prepaid, if found otherwise.

WE SEND FULL CULTURAL DIRECTIONS WITH EACH ORDER.

FRENCH BULBS FOR VERY EARLY FORCING

American Grown

The three varieties named below have been grown for us in the United States and are due to arrive at our packing house in August. They can be delivered upon arrival or at the time your order is received, for immediate planting in order to have early flowers. Follow the directions given with each variety, and you will have an abundance of dainty, attractive flowers in early winter. We start our book with these bulbs as they are the earliest flowering bulbs we offer.

PAPER-WHITE NARCISSUS

Suitable for growing in water and gravel
or sand

We handle only the *Giant Grandiflora* variety, which is a great improvement over the ordinary Paper-White Narcissus. It can be had in bloom from Christmas until Easter, either in pots, bowls or boxes. Upon arrival, plant them immediately, if wanted early, and put in a cool place in cellar or pit, free from frost. When well rooted they can be taken into the heat, and if watered freely they will produce an abundance of beautiful blooms. They are not hardy.

Doz. 100 1,000

Jumbo or Exhibition Size \$ 1.10 \$ 8.00 \$ 75.00

Lilium Candidum

Narcissus Paper White Grandiflora

GOLDEN YELLOW PAPER-WHITE NARCISSUS, SOLEIL D'OR

Soleil d'Or resembles the Paper-White Narcissus very much, in habit, but is of an exquisite deep yellow color, with an orange-yellow cup. The culture is the same as for the Paper-White Narcissus. We expect to have some very fine stock of this variety to meet the steadily increased demand of the last few seasons. Do not forget to order a few and get acquainted with this wonderful flower. We offer only the Exhibition Size, \$ 2.50 per doz., \$ 18 per 100, \$ 160 per 1,000.

LILIUM CANDIDUM

This is the exquisite Madonna Lily, which produces a large mass of snow-white flowers on straight stems. Plant these bulbs in the open in September or October, and protect them well from frost, as they are not extremely hardy, and during May or June you will have an abundance of flowers. Can also be planted in pots and by putting them in a cold-frame for three months, well protected, then taking them into a greenhouse, the same success will be yours. Jumbo bulbs only, 40 cts. each, \$ 4 per doz., \$ 30 per 100.

TULIPS

The Tulip is a favorite with every flower-lover, from amateur to professional, because of its brilliant colors and ease of culture. For planting in beds in the lawn or in the borders of the walks or shrubbery, as well as in pots or pans in the house or conservatory, they are unexcelled. Each year there is added to the list of these beautiful flowers, novelties in color and form that are most attractive. The single early Tulips may be forced in bloom indoors from January until Easter. These Tulips are a trifle shorter in their growth than the famous Darwin Tulips, but because of their magnificent show during the winter, they will always be in demand by every American.

Culture Indoors. They will thrive in any good garden soil, but a properly prepared soil of leaf-mold, with one-third sand mixed in, is preferable, although not necessary. If planted in pots, the tops of the bulbs must be level with the surface of the soil. Water well and store away in a cool, dark place, watering occasionally to prevent them from drying out. The best and most natural way of keeping them after potting is to bury them in the ground, with the pot or pan 4 inches beneath the surface of the ground, and, just before the winter sets in, cover them well to prevent the ground from freezing, so as to facilitate the lifting out in January in order to force them indoors. The reason for placing them in the ground after potting is in order to allow them to root in the most natural way, which is most essential for forcing. The rooting usually occurs between October and the middle of January. After taking them in from outside, keep them well watered and do not allow the lower part of the pot to get warm, as it is the top that needs the warmth. Keep them at about 50 degrees Fahrenheit for the first two weeks. For proper drainage, put a piece of broken pot in the bottom of the pot over the hole. In order to furnish continuous and steady water supply, place the pot in a dish or saucer and fill this with water every day.

Starting the Spring garden right with a border of glorious Tulips.

Outdoor. Culture. It is most important that the soil be thoroughly loosened at least 12 to 18 inches deep, and, if possible, mix the soil with leaf-mold or old well-rotted stable manure; it is very important that the soil be as loose as possible. Plant the bulbs about 4 inches below the surface of the bed or border. After the first sharp frost, not sooner, cover the ground with 1 to 1½ inches of leaves or straw, or any other light cover, to prevent the frost from penetrating below the bulbs. After the danger of hard frost is over in the spring, take off the cover, being careful not to break the new tops, which will have grown through the cover.

We have reduced the number of varieties greatly and have compiled a list of the best, most distinct, and leading Tulips only, as many differ only slightly from others.

Your gain is no loss to us.
Order before July 1st, if at all
possible and enjoy 10 % discount
on all prices.

GIANT DARWIN TULIPS (May-Flowering)**THE PRIDE OF THE GARDEN**

These Tulips have created a real sensation for the past few years, and one really does not wonder when seeing them in full bloom. They got their reputation through merit alone. They are most brilliant in color and of the greatest variety of shades. Each flower is extremely large, thereby producing a most gorgeous show in any garden, either in beds, borders, or among shrubbery. With the exception of a few varieties, they are not very satisfactory indoors, and one must be an expert grower to flower them in the house at all, but they never fail outdoors.

Baronne de la Tonnaye in a mass planting.

The unique shades of Breeder Tulips are most attractive.

BREEDER TULIPS

These Tulips, although formerly listed among the Cottage varieties, form a distinct class in themselves being an unbroken form of the old-time Florist's Tulip. The Breeders, strange to say, were discarded by their originators, the old Dutch gardeners, because they had no stripes or feathers, and until recently they were placed in the background of borders and other obscure places. Now that a taste for art colors has been awakened, together with a desire for bronze, brown, and buff tones, attention is again drawn to these old-fashioned Tulips, and within a very few years they have become the most popular of all the late Tulips.

They well deserve their popularity, not only their peculiar and artistic coloring, but for their lasting qualities as well, for this makes them unusually well suited for garden decoration, slow forcing, and cut-flower use. In size of flower, length and strength of stem, and general beauty they far excel the Darwins.

This class of Tulips will prove very interesting on account of their peculiar forms and different habits of growth.

OLD ENGLISH COTTAGE TULIPS (May-Flowering)

The Tulips belonging to this class owe their name to the fact that many of them had been found growing about country houses and cottages in England and France generations ago. In the hands of skilful gardeners, and by careful hybridizing and selecting the best soil that could be found, the selection has become very extensive. All imaginable colors are now represented in this class. They all have long stems and very graceful formation and are therefore unsurpassed for the garden and excellent for cutting.

Cottage Tulips are graceful. Sure

Lily flowered Tulip SIRENE

REMBRANDT TULIPS

The Rembrandt Tulips are simply striped and feathered Darwin Tulips. They somewhat resemble another strain of Tulips called Byblooms, but their flowers are considerably larger and they run in a greater range of colors. The merit of the Darwin Tulips is so well established that we do not feel it is necessary to outline the merit of the striped Darwins—the Rembrandts

	Doz.	100

UNUSUAL OFFERINGS OF MIXED TULIPS

WE GROW NO MIXTURES. All Tulip mixtures are made up separately for each order at the time of shipment and they are made up of the same size bulbs as our named varieties.

We use twelve different varieties to make one dozen Tulips, and many more of course for making up a hundred or a thousand mixed Tulips, always visualizing the garden effect these Tulips have to create.

SINGLE EARLY TULIPS

For forcing in pots or pans during winter, or early spring flowering outdoors

MUST BE PLANTED BEFORE THE MIDDLE OF NOVEMBER

Note—The letters E, M, and L, following each variety indicate their relative earliness of blooming. E. indicates Early; M, Medium; L, late, although, with a few exceptions, most varieties bloom about the same time when planted outdoors, the late ones coming into bloom when the early ones are fully out. The figures indicate the height in inches.

BELLE ALLIANCE. M 11.

Brilliant scarlet; large flower. Excellent forcer as well as bedder.

70 cts. p. doz., \$5.00 p. 100, \$48 p. 1,000.

BRILLIANT STAR. E.

Bright vermilion scarlet. Very early forcer and good early bedder.

75 cts. p. doz., \$5.50 p. 100, \$53 p. 1,000.

COTTAGE BOY. M 10.

Light orange-red, bronzy yellow border; an extra fine variety for bedding.

85 cts. p. doz., \$6.00 p. 100, \$58 p. 1,000.

Cottage Maid. M 10.

Carmine-pink, center of petals feathered with white. A very dainty variety for bedding only.

75 cts. p. doz., \$5.50 p. 100, \$53 p. 1,000.

COULEUR CARDINAL. L

12. Bright crimson-scarlet, with a deeper shade of red, like dew, on the outside. A large bed of this variety is about the most attractive of any of the early Tulips. Fine forcer also. \$0.90 per doz., \$6.50 per 100, \$63.00 per 1,000.

Crimson Brilliant. M, 14.

A bright crimson-red. A very attractive flower both for bedding and forcing.

55 cts. per doz., \$3.50 per 100, \$33.00 p. 1,000.

FLAMINGO. M 12.

Carmine-rose, shaded light pink. A very attractive flower which has gained wonderfully in popularity because of its very handsome appearance. 90 cts. per doz., \$6.50 per 100, \$63.00 per 1,000.

GENERAL DE WET. M 14.

(Sport of Prince of Austria.) Sweet-scented flowers of a fiery orange with yellow center.

\$2.70 per doz., \$20 per 100.

GOLDFINCH. M 11.

An unfading golden yellow, making it a wonderful Tulip for bedding.

85 cts. per doz., \$6 per 100, \$58 per 1,000.

Joost van Vondel. M 12.

Cherry-red with white stripes in center of petals. Very attractive; good bedder and forcer.

65 cts. p. doz., \$4.50 p. 100, \$42 p. 1,000.

JOOST VAN VONDEL WHITE. M 13.

(Lady Boreel) Snowy white flower of very large size and handsome shape, making it an excellent bedding variety. Slow forcer. 75 cts.

p. doz., \$5.50 p. 100, \$53 p. 1,000.

KEIZERSKROON.

FROM GROWER TO CONSUMER

LE REVE (Hobbema)

SINGLE EARLY TULIPS, continued.

KEIZERSKROON. E 15.

Crimson-scarlet, with very attractive golden yellow edge. Can be seen at a great distance and is one of the most popular bedding Tulips. Large flower. Excellent forcer. One of the best.

\$ 1.10 per doz., \$ 8 per 100, \$ 78 per 1,000.

King of the Yellows. E 14.

The name indicates its quality as well as its color, and it is fully deserving of that name. Extra forcer.

85 cts. per doz., \$ 6 per 100, \$ 58 per 1,000.

LA REINE. M 12.

White, shaded pink when in full bloom. A very pretty variety and millions are used by florists for forcing and cut-flowers. Fine for bedding.

60 cts. per doz., \$ 4 per 100, \$ 38 per 1,000.

LA REVE (Hobbema). L 15.

Old-rose, buff suffusion.

85 cts. per doz., \$ 6 per 100, \$ 58 per 1,000.

McKinley. M 12.

Brilliant red. Specially fine when planted in a large bed.

85 cts. per doz., \$ 6 per 100, \$ 58 per 1,000.

PINK BEAUTY. M 12.

Bright cherry-rose, slightly striped white, harmonizing perfectly and making a very fine show if a whole bed is planted with this variety.

\$ 2 per doz., \$ 14 per 100, \$ 130 per 1,000.

PRINCE OF AUSTRIA. M 14.

Large brilliant orange-scarlet flower borne on tall stem. Fine forcer; also pleasing in a bed.

70 cts. per doz., \$ 5 per 100, \$ 48 per 1,000.

PROSERPINE. E 14.

Rose-carmine; large flower. Undoubtedly one of the easiest and earliest forcers of all Tulips except Duc van Thol Scarlet. Very beautiful and most popular.

\$ 1.10 per doz., \$ 8 per 100, \$ 75 per 1,000.

RISING SUN. M.

Clear golden yellow of great beauty and vigor. Tall.

1.05 cts. p. doz., \$ 7.50 p. 100, \$ 73 p. 1,000.

ROSE LUISANTE. L 10.

Deep rose-pink of great brilliancy; large flower. A most gorgeous bedding Tulip. Forces beautifully if placed in moderate temperature.

85 cts. per doz., \$ 6 per 100, \$ 58 per 1,000.

Thomas Moore. E 14.

Beautiful apricot, with dull orange-yellow edge; sweet scented. A beauty when forced. Is also a very handsome cut-flower, as it has a very long stem.

70 cts. per doz., \$ 5 per 100, \$ 48 per 1,000.

Vermillion Brilliant. E.

Bright glittering scarlet with yellow base. Long flower of exquisite beauty. Excellent forcer.

85 cts. per doz., \$ 6 per 100, \$ 58 per 1,000.

White Beauty. L.

This is a sport of the famous Pink Beauty. Very beautiful and very large.

\$ 2 per doz., \$ 14 per 100, \$ 130 per 1,000.

White Hawk. M 12.

Of all white Tulips this variety is the most handsome and suitable for all purposes.

70 cts. per doz., \$ 5 per 100, \$ 48 per 1,000.

WOUWERMAN. M 12.

Large rich dark purple flower. Planted in a bed with Rose Luisante makes a most gorgeous show.

\$ 1.10 per doz., \$ 8 per 100, \$ 78 per 1,000.

Yellow Prince. M 12.

Clear golden yellow of extremely good quality. Fine for forcing and bedding. Millions of these are grown every year.

85 cts. per doz., \$ 6 per 100, \$ 58 per 1,000.

Box B

Hyacinths in a group are very handsome

HYACINTHS

Hyacinths will grow in any good soil, but they prefer a rich light soil. The method of growing is as simple as that of tulips, but when planted in pots the top of the bulb should be level with the surface of the soil, and plenty of water should be given when in the house or conservatory. When planted outdoors they require six inches or more of cover (preferably light) after the first sharp frost, as they are not as hardy as tulips, the cover to be partly removed after the middle of March if there is no snow.

Special Collection of Exhibition Hyacinths.

	Each	Doz.	100
General de Wet. Immense light pink spikes resembling Grand Maitre. Very delicate	\$ 0.35	\$ 3.50	\$ 25.00

—and a pan of Hyacinths is the pride of the sun porch

SPECIAL BEDDING HYACINTHS

The Hyacinths selected for this purpose excel in vigor as well as size of truss the so-called Unnamed Bedding Hyacinths, as these are selected from our First and Second-Size Hyacinths and are consequently very superior. Plant 8 inches apart and with at least 4 inches of soil on top of the bulb. Give them the same treatment as other Hyacinths.

100 Bulbs each of above 10 shades (1,000 bulbs) \$ 120.00

MINIATURE OR DUTCH
ROMAN HYACINTHS

These are the Hyacinths used for growing in bulb-pans, and if planted ten to twelve bulbs to an 8 or 9-inch pan they cannot be surpassed. They are apparently small bulbs, but in comparison to their size they produce immense flowers. On account of their low price and splendid results, they are very much in demand for house culture. By planting only one kind in a pan, the best results can be obtained, as then they produce an even growth. By following the same cultural directions as given for the Hyacinths, failure is impossible. They are also greatly used for bedding.

NARCISSI OR DAFFODILS

In order to have a beautiful bulb-garden, Narcissi should be planted very freely. They thrive in practically any climate in the United States and it is small wonder that the demand is doubling every year. They are not only excellent for outdoors, but millions are used every year for forcing indoors. Their graceful form, beautifully shaped trumpets and cups, and the long, straight stems have made them favorites for cut-flower purposes with every American gardener. We have compiled a list (as short as we could make it) of the best and most attractive varieties for indoor, outdoor, and exhibition purposes, and it is complete and easy to select from.

Culture. The same as Tulips, although they should be planted as close as possible in the open or pans. After active growth commences, give plenty of water.

Culture Outdoors. They should be planted so that the top of the bulb is at least 5 inches beneath the soil. A little protection should be given during severe winter weather, although they are perfectly hardy.

In our descriptions we use the following terms: **Perianth**—the outer petals of the flower. **Trumpet**—the long cup- or trumpet-shaped center. **Crown or Cup**—the short or flat center.

KING ALFRED, the King of Daffodils

EXPLANATION OF DAFFODIL CLASSES AND TYPES

YELLOW TRUMPET varieties have trumpets which as a rule are longer or as long as the perianth segments (Petals). They usually have a light or deep yellow perianth with a trumpet of deeper yellow.

BICOLOR varieties have creamy or pure white perianth segments and yellow trumpets.

BARRII varieties have a light or deep yellow perianth segments and an expanded crown instead of a trumpet, which is light or deep with red or orange edge.

INCOMPARABILIS varieties have light or deep yellow segments a crown of light or deep yellow very similar to a short trumpet.

LEEDSII varieties always have white segments, while the crowns are white or light yellow. They are very dainty.

POETICUS. Snow white segments, crowns usually heavily rimmed orange or scarlet with a green eye in center of crown.

POETAZ. Cluster flowered in white, light or deep yellow. Some varieties have orange or red rimmed small crowns.

JONQUILS. Usually bear small flowers in small or large clusters on one stem, and usually are sweet scented.

DAFFODILS FOR NATURALIZING

WHY. Hundreds of thousands of daffodils are used yearly for this purpose, because when once planted they continue without any care to give you unmeasurable joy year after year.

VARIETIES. Numerous varieties have proved very successful for this purpose and we will use no others.

TYPE. Practically all types of daffodils contain some varieties suitable for this purpose, thereby increasing the number of varieties and adding greatly to the desire of naturalizing daffodils.

SIZE. Only sizes which are most desirable for naturalizing without continuous care are selected for your favorite garden spot. "The natural garden".

SOIL & LOCATION. Practically any soil has been found suitable but when planted under and among trees and in woodlands, the leaves of the trees should not always be removed as taking away this natural food will not only injure your trees but also will prevent the daffodils from producing as they should.

HARDY. Only such varieties having proved to be hardy are selected for that purpose.

DEPTH. Plant at least 8 inches deep but avoid places where water may collect at any time as they like drainage.

WHEN TO PLANT. Try to plant them before October 15th or shortly thereafter but place your order early as the demand is increasing for these bulbs at this special low price we have adopted and we cannot take orders for less than 100 bulbs.

Per 100, \$ 8.00.

Per 1,000 \$ 75.00.

Per 10,000 \$ 700.00.

CROCUS

NEW STRAIN OF GIANT FLOWERING CROCUS

This new strain of giant crocus is called **IDEAL CROCUS**. We introduce this wonderful strain for the first time and although we have not raised the price we can truthfully state that our customers will receive double value. The prices below are simply and introductory offer and we feel sure that the old strains of crocus will disappear from the market as soon as enough of these Giant Flowering Crocus can be produced.

Per doz., \$ 0.40.

Per 100 \$ 3.00.

Per 1,000 \$ 25.00.

FROM GROWER TO CONSUMER

Muscari (Grape Hyacinths)

MUSCARI

(Grape Hyacinth)

The foliage of this plant is very similar to that of Scilla, but the flowers are of an entirely different form—grapelike clusters closely set—and are wonderful cut-flowers. Always exquisite when naturalized.

Botryoides, Blue. 35 cts. per doz., \$ 2.50 per 100, \$ 22:50 per 1,000.

Blue Bird. An immense improvement over the former variety, the flowers being twice as large and growing taller, and of a delightful heavenly blue. \$ 1.20 per doz., \$ 9 per 100, \$ 85 per 1,000.

CHIONODOXA

(Glory-of-the-Snow)

An early-flowering spring bulb for borders or rockery. Produces flower-spikes bearing ten to fifteen scilla-like flowers. Perfectly hardy and should be planted close together for effect.

Luciliae. Deep blue, with a white center. Selected mother bulbs. 60 cts. per doz., \$ 4 per 100, \$ 35 per 1,000.

Snowdrops (Galanthus)

SNOWDROPS (Galanthus)

Everybody knows the Snowdrops; with its little white bells coming through the snow very early in the spring—practically the first flower to show itself after the dreariness of winter. It is a wonderful bulb for naturalizing and for every garden.

NIVALIS (Single). 45 cts. per doz., \$ 3.50 per 100, \$ 30 per 1,000.

NIVALIS (Double). 60 cts. per doz., \$ 4.50 per 100, \$ 40 per 1,000.

Scilla Sibirica

SCILLA

Scilla Sibirica naturalize splendidly, are cheap and so can be planted liberally, and everyone who has a garden should provide for the time when they will be excluded.

Sibirica. Blue. 55 cts. per doz., \$4 per 100, \$35 per 1,000.

Sibirica, Sky Blue. A trifle lighter blue than the former with large flowers of a most beautiful heavenly blue color. \$1.20 per doz., \$9 per 100.

ERANTHIS HYEMALIS

(Winter Aconite)

Early in spring the golden blossoms look charming, resting on an emerald-green cushion of leaves, and forming a striking contrast to the snowdrops, scillas, and chionodoxas. The foliage remains long after the flowers, making the plant especially valuable in moist situations, such as under trees, which the Winter Aconite enjoys, and where few other flowering plants will thrive. 3 to 8 inches high. 50 cts. per doz., \$3.50 per 100, \$30.00 per 1,000.

FRITILLARIA MELEAGRIS

Singular, dwarf spring-flowering plants, bearing large, pendent bell-shaped flowers of various colors, in yellow, white, black, purple, striped and splashed, and checkered in the most curious way. They are invaluable for pot culture, and exceedingly pretty when grown in large groups in the garden border or wild garden in a dry situation.

Mixed. Select mixtures. Per doz., \$0.80. Per 100, \$6.00. Per 1,000, \$55.00.

A Word About Irises

It has been the experience of many that Irises planted in the spring will not bloom the first season, and we recommend September planting, not later. This rule applies to a great many varieties of plants. If you order plants from us, we will ship in the right planting season, in other words, we help those who are in doubt about "When to Plant."

IRIS GERMANICA

These beautiful Irises bloom early in the spring when the bulbs have just finished blooming, and because of their great variety of colors, they make a magnificent show. They are perfectly hardy and thrive in almost any soil, especially where they are exposed to the full sun. No home-garden is complete without a few clumps scattered about, and they are also excellent for massing and bordering.

We quote only the best old varieties and new ones.

To simplify making a selection, we have classified them with the following abbreviations:

Germanica, Ger. May-flowering; earliest of all.

Pallida, Pall. Tall growers with large, sweet-scented, blue, lavender, and purple flowers.

Amoena, Am. Standards white; falls various shades.

Neglecta, Ng. Standards range from lavender to purple.

Plicata, Pli. Flowers have a frill-like lilac margin on a white ground.

Squalens, Sq. Standards are clouded shades of copper, bronze and fawn.

Variegata, Var. Standards are various shades of yellow.

3 for 75 c. 12 for \$ 2.50.

100 for \$ 20.00.

ALBERT VICTOR. (Pal.) S. Soft blue. F. beautiful lavender. Large and fine.

AUREA. Rich chrome yellow. The finest pure yellow.

CELESTE. (Pal.) Pale azure blue.

FAIRY. (Pli.) White suffused soft blue.

FLORENTINA ALBA. Ivory white tinged with lilac. Excellent variety for cutting and an early bloomer.

FLORENTINA BLUE. Deep dark blue. Tall and vigorous.

GRACCHUS. (Var.) S. clear yellow. F. Marked red, reticulated white. A very conspicuous variety.

INNOCENZA. (Am.) E. and F. Ivory white, crest rich golden. Delicate and beautiful.

KATHLEEN. (Pal.) S. and F. a soft rose lilac.

LOHENGRIN. S. and F. uniform shade of cattleya rose. Very large.

LORELEY. S. light yellow. F. ultra marine blue bordered cream.

MITHRAS. (Var.) S. Pale yellow. F. Violet shaded with claret and yellow border.

MONSIGNOR. S. crimson dotted lavender, inner petals ivory. F. rich crimson edged lavender.

PERFECTION. (Neg.) S. light blue. F. dark velvety violet and black orange beard. A handsome bold conspicuous flower.

IRIS GERMANICA—Continued

PRINCESS VICTORIA LOUISE. S. Pale yellow. F. rich violet edged cream.

QUAKER LADY. S. smoky lavender with yellow shadings. F. Blue and gold, stigmas yellow. Yellow beard. Odd and attractive.

QUEEN ALEXANDRIA. S. fawn shot with lilac. F. lilac reticulated at base with bronze. Beard yellow.

ROSE UNIQUE. (Pal.) S. and F. bright violet rose, nearest approach to a pink Iris. Very early.

TENDRESSE. (Pal.) Delicate lavender and lilac.

VIOLACEA GRANDIFLORA. (Pal.) S. rich blue. F. violet blue. Large.

ORIENTALIS. Intense brilliant blue.

JAPANESE IRIS

(*Iris Kaempferi*)

This queen of the large-flowering Irises is very attractive. It flowers a little later than the German Irises, which adds greatly to its popularity. The flowers are of an enormous size and there are single and double varieties, both being equally attractive and suitable for cut-flowers, as they really develop into a more perfect bloom if they are cut just before the bud opens and placed in the house in fresh water. The best time to plant these Irises, like all other Irises, is September, to allow them a fair time to make new roots before the winter sets in.

3 for 75 c. 12 for \$ 2.50
100 for \$ 20.00.

CARLTON CHILDS. (Sgl.) Ivory white veined plum. Inner petals pink.

CATHARINE PARRY. (Dbl.) Blue overlaid rosy-red, high tufts in center almost triple.

DORIS CHILDS. (Dbl.) Pearl white deeply veined rosy plum. Center petals deep plum edged white.

ELEANOR PARRY. (Dbl.) Claret red flamed white and blue. Compact medium size flower. Good.

FASCINATION. (Dbl.) Blue lightly veined white. Pink tinge.

GOLD BOUND. (Dbl.) Pure white. One of the best.

JEANETTE PARRY. (Sgl.) White suffused with lines of blueish violet, petaloid stigmas amethyst violet.

MT. HOOD. (Dbl.) Light blue shaded darker. Bright orange center.

PAINTED LADY. (Sgl.) White, center blotched light phlox purple, turfs white, with phlox purple edge.

RED RIDING HOOD. (Sgl.) Fine amaranth veined and suffused white.

ROSE ANNA. (Dbl.) Ivory white heavy ruby red veined. Conspicuous yellow blotch. Stigmas dark plum.

VIOLET HERRINGTON (Dbl.) Bradley's violet, white veins, tufted center. Large. Dwarf.

HARDY LILIES

FOR PLANTING LATE OCTOBER
OR EARLY NOVEMBER

Instructions for planting vary so widely that we mention method of planting with each variety. Ground should be loosened well about 12—15 inches and if leafmold and sand can be put in the bottom, so much the better to insure good drainage. It is not strictly necessary, but if the sun is kept off the ground with a mulch the lilies will do better than in sunbaked ground.

	Each	Doz.
BROWNII. Pure white, heavily veined purple outside. Stem rooting. Plant 8 inches deep. Height 3 to 4 feet. Flowers June—July	\$ 2.50	\$ 25.00
CHALCEDONICUM. Rich scarlet spotted with black. Base rooting. 5 inches deep. Height 45 feet. Flowers June—July...	2.00	20.00
HANSONI. Rich golden yellow, brown spotted. Does not always bloom the first year. Stem rooting. Plant 10 inches deep. Height 45 feet. Flowers June.....	1.00	10.00
KRAMERI (Japonicum). A pink lily. Not an exceptional strong grower. Stem rooting. Plant about 8 inches deep. Prefers a ground cover. 3 to 4 feet. Flowers June-July.....	.75	7.50
LEICHTLINI. Tiger lily shape. Pale yellow with purple spots. Prefers ground cover. Stem rooting. 6 inches deep. Height 3 to 4 feet. Flowers July-August75	7.50
MARHAN. A crossing between Martigon and Hansoni. Orange with brown spots. Very vigorous. Stem rooting. 8 inches deep. Height 3 to 4 feet. Flowers June-July	2.00	20.00
MARTIGON ALBUM. Numerous bell shaped waxy white flowers. Prefers partial shade. Base rooting. 4 inches deep Height 4 to 5 feet. Flowers June	1.25	12.00
RUBELLUM. Rose pink lily. Prefers gravel soil and shaded by shrubs. In some cases does not flower the first season. Stem rooting. 6 inches deep. Height 1½ feet.....	.50	5.00
SULPHUR GALE. A crossing between Sulphureun and Regale. Stem rooting. 9 inches deep. Height 45 feet. Flowers August	2.00	20.00
TESTACAUM (Nankeen Lily). One of the choicest of all lilies. Very fragrant. A true nankeen yellow with orange yellow anthers. Base rooting. Cover the bulbs about 2 inches, and protect its roots from the sun with a low ground cover. 4 to 6 feet high. Flowers June-July	2.50	25.00
UMBELLATUM GOLDEN FLEECE. Clear golden yellow, light scarlet on tips of petals. Stem rooting. 8 inches deep. 2 to 2½ feet high. Flowers June	1.50	15.00
WILLMOTTIAE. Very graceful orange red flowers, with recurved petals. 15 to 20 blooms on stems 3 to 4 feet. Will produce more flowers and longer stems when well established. Stem rooting. 8 inches deep. Flowers July and August.....	2.00	20.00

6 Bulbs each of the above 12 varieties (72 bulbs).....	100.00

HARDY LILIES

FOR PLANTING LATE OCTOBER
OR EARLY NOVEMBER

Hardy lilies are vastly becoming the most pleasing and popular garden flower. One of the principal reasons is the fact that they bloom in the months that the hardy flower border is rather short of color. Its hardiness and numerous colors also add greatly towards its popularity. The second and third year after planting they are better than the first year.

CANADENSE. Yellow and orange to red spotted inside, and naturally a small bulb. Plant five inches deep. Prefers a ground cover. Base rooting. Height 3 feet. Flowers June-July.....	Doz.	100
ELEGANS (Thunbergianum). Varying from citron yellow to deep blood red. Stem rooting. Height 1½ to 2 feet. Plant 8 inches deep. Flowers June-July	\$ 4.00	\$ 30.00
MARTIGON. Purple. Long truss of beautiful bell-shaped purple flowers. Base rooting. 4 inches deep. Height 45 feet. Flowers June.....	3.00	20.00
PARDALINUM (Panther Lily). Bright orange spotted with crimson. 4 to 6 feet high. Base rooting. Plant 5 inches deep. Flowers July	3.50	25.00
PYRENAICUM. Yellow with green spots. Base rooting. 5 inches deep. Height 2 to 3 feet. Flowers October.....	3.00	20.00
REGALE (Myriophyllum). A real royal lily. Pure white shading off to pink. 3 to 5 feet. Plant 9 inches deep. Stem rooting. Flowers July	6.00	45.00
SPECIOSUM MELPOMENE. Rich carmine on white ground, with crimson spots. Height 4—5 feet. Stem rooting. Flowers August-September. Plant 10 inches deep	10.00	80.00
SUPERBUM. Height 8 feet when established. Orange to crimson orange. Base rooting. 5 inches deep. Prefers moist soil. Flowers August	3.50	25.00
TENUIFOLIUM. Deep waxy scarlet. 18 inches high. Stem rooting. Plant 6 inches deep. Flowers June.....	4.50	32.00
TIGRINUM SPLENDENS. Orange red, purple spotted. Stem rooting. Plant 9 inches deep. Height 4-5 feet. Flowers Sept.	6.00	45.00
TIGRINUM FLORE PLENO (Double Tiger Lily). This is the real double form of Tigrinum Splendens with same color and characteristics	2.00	15.00
UMBELATUM GRANDIFLORA. Shades of yellow, orange, and crimson. Stem rooting. Plant 8 inches deep. Height 2 to 2½ feet	2.00	15.00
	3.00	20.00
